AMP® Low Voltage Landscape Lighting

AMP® ONE RGBW HydraPro™ Single Source LED Underwater Light (Dimmable)

Product Description

This single-source integrated LED underwater light is the first of the premium HydraPro™ series to offer powerful, vivid RGBW color-changing capabilities. The fixture ships set at 100% light output with 2700K color temperature. Color modes and 10-step dimming options are unlocked using the AMP® RGBW Remote Control (only one remote control is required to control AMP® RGBW fixtures). Includes interchangeable optics - 60° lens pre-installed. Constructed of durable cold forged brass with a robust base for secure mounting - no hardware required. Shielded and grated glare guard options available separately. Backed by AMP®'s Hassle-Free Lifetime Warranty.
