AMP[®] Low Voltage Landscape Lighting

AMP[®] ONE RGBW HydraPro™ Single Source LED In-Grade Light (Dimmable)

Product Description

This single-source integrated LED in-grade light is the first of the premium HydraPro™ series to offer powerful, vivid RGBW color-changing capabilities. The fixture ships set at 100% light output with 2700K color temperature. Color modes and 10-step dimming options are unlocked using the AMP[®] ONE RGBW Remote Control (only one remote control is required to control AMP[®] ONE RGBW fixtures). Includes interchangeable optics - 60° lens pre-installed and 38° lens included separately. Fully-submersible well light constructed of durable cold forged brass with various glare guard options available. Glare guard options include: shielded, grated, and beacon. Backed by the AMP[®]'s Hassle-Free Lifetime Warranty.

Product Dimensions

Features & Benefits

- ▶ Cold Forged brass faceplate for maximum durability.
- ▶ Raised lens to prevent water from puddling.
- ▶ Pressure fit gasket (must be tightened in a star pattern).
- ▶ Completely water tight & fully submersible.
- ▶ Water tight wire gland.
- ▶ Efficient heat dissipation.
- ▶ These in-grade lights have 3 additional styles of faceplates to choose from: beacon, shielded, and grated (sold separately)
- ▶ RGBW available with remote sold separately.
- ▶ Comes with 60° optic pre-installed (38° available separately)
