

VOLT® Landscape Lighting

VOLT® 120V Brass Flood Light with Knuckle- VFL-45XX-LI-BBZ

Product Description

The industry's first brass series of commercial style 120V LED flood lights. Compared to traditional 120V aluminum flood lights, VOLT®'s brass 120V flood lights allow for much slimmer body designs while still offering high lumen outputs and ultra-wide beam angles. The fixtures feature extra powerful, efficient integrated LED light sources. Ideal for expansive areas, large features, and up-lighting tree canopies. Super-durable solid brass constructions with beautiful bronze finish to blend into any landscape. Tempered glass lenses are fully sealed with long-life gaskets to provide a tight fit against moisture intrusion. Frosted lenses create balanced blending of light outputs and offer added glare protection.
