VOLT® Low Voltage Landscape Lighting

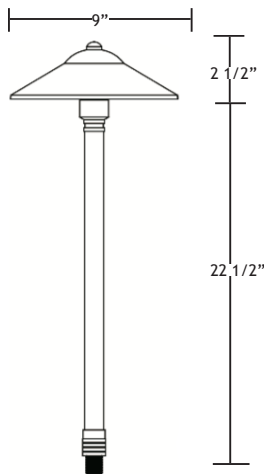

VOLT® Max Spread Stainless Steel Path & Area Light - VSM-2407/1203

PRODUCT DESCRIPTION

Add a sleek, modern look to your outdoor space with the Max Spread is our most popular path light; it's perfect for pathways, driveways, flower beds and more. The large shade with shallow angle and tall post create a huge 16-foot diameter region of illumination, which is 30% greater than most of our other path lights. This ample beam spread saves you money; since the lights can be positioned farther apart, you'll need fewer fixtures. For continuous illumination along a path, space these fixtures about 16 feet apart. For independent pools of light, space about 20 feet apart.

PRODUCT DIMENSIONS

SPECIFICATIONS

- **Construction:** 316 Stainless Steel
- **Lead Wire:** 4' (standard) 18AWG
- **Mounting:** 10" Hammer® Stake with cutout for wire exit
- **Lens:** Clear Protective Polycarbonate lens
