|---------------------|-----------------|
| A. (1) Fixture Body | D. (1) LED Lamp |
| B. (1) Shade | E. (1) Diffuser |
| C. (1) Stake | |

Product Dimensions

1 Install Stake

Determine the desired location for mounting the luminaire. Hammer the stake into the ground until flange of stake is flush to grade. To avoid damage to the stake, place a board on top of the stake while hammering.

NOTE: If the ground is hard and the stake is difficult to install, make a crosscut in the ground using a flat shovel.

2 Install Fixture Body to Stake

Clear away an area in the ground at the wireway slot on top of the stake. Lay the luminaire pigtail into the wireway slot and thread the coupler at the bottom end of the fixture body onto the stake. Tighten until snug to secure the base.

3 Wire Connection

Strip both leads from the luminaire pigtail. Using two wire connectors (sold separately), connect the leads from the luminaire to the main supply cable leads.

4 Remove Dome Lens

Loosen the dome lens from the holder to expose the socket.

5 Install Bulb

Insert bulb with the correct wattage and type marked on the fixture label.

CAUTION: Do not exceed maximum wattage marked on luminaire label.

NOTE: DO NOT touch bulb with bare hands. Use soft cloth to handle bulb.

6 Install Dome Lens

Thread the dome lens back onto the holder and hand tighten.

Install/Replace Bulb

Please reference Step 4 - Step 6 to expose the Bulb and replace it with the correct wattage and type marked on the fixture label. Reinstall Shield.

IMPORTANT: LED Bulb must be protected from moisture and dust at all times. Always reinstall shield when removed.
