**Figure A**

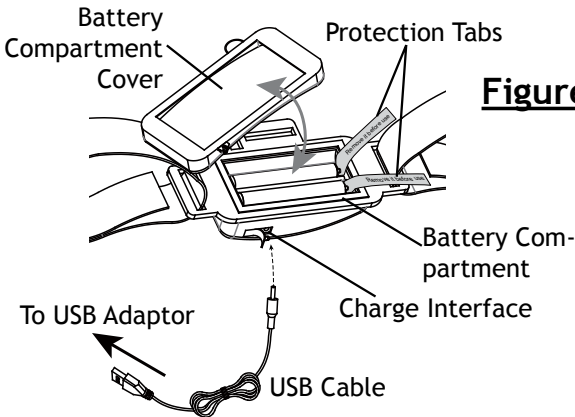

**STEP 1:** Place the headlamp on your head. Then adjust the strap size by using the tension buckles.

**STEP 2:** Refer to Figure B for batteries usage.

**STEP 3:** Push the button on the top of the lights to turn them on. 1 push will turn on the main light. 2 pushes will turn on the side lights. 3 pushes will turn on all the lights. 4 pushes will make all the lights flash.

**Figure B**

**Battery Usage:** Remove the battery protection tabs. If you open the battery compartment, close it properly before using the headlamp.

**Charge Battery:** Insert the round end of the USB cable into the charge interface on the battery compartment. Connect the USB end to the USB adaptor.
