

AMP® Low Voltage Landscape Lighting

Turtle Safe EllipsePro™ Mini, Turtle Safe Area Lights - 3510 Series

Product Description

The AMP® EllipsePro™ Mini Turtle Safe Area Light is a high-quality outdoor light that is great for illuminating smaller areas. Featuring a short stem and a simple, yet attractive hat, the luminaire projects a wide beam of illumination.

Corrosion-resistant internal components and an easy-to-change bulb socket-and-enclosure ensure years of optimal performance. This fixture is specifically manufactured to avoid sea turtles being distracted by the light and coming inland where they often perish. Instead; with turtle safe lights, the turtles will safely return to the ocean where they belong.

Product Dimensions

Features & Benefits

- ▶ Solid Brass or Copper Construction.
- ▶ Pre-aged Finish
- ▶ Stem is 1-inch thick and includes extra-long (1-inch) strip resistant threading for greater stability.
- ▶ Beryllium copper socket - more corrosion resistant than copper.
- ▶ Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem.
