

AMP® Line Voltage Landscape Lighting

AMP® Max PinnaclePro™ 120V (Lamp Ready) Spotlight

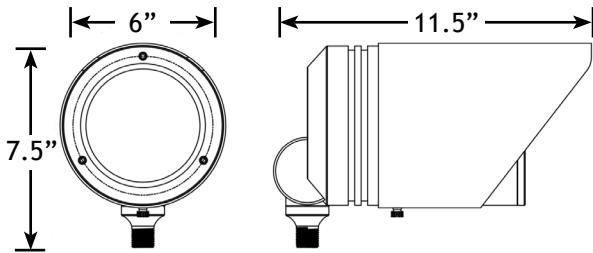

Product Description

The AMP® LED Max PinnaclePro 120V Lamp Ready Spotlights are modeled to the look of our flagship PinnaclePro Spotlights. With a fully adjustable glare guard not typically seen on line voltage spotlights; this fixture not only packs a punch, but delivers precision aiming as well. These feature a super sized body with a knuckle to match. Interlocking small teeth in the knuckle allow for a strong securely locked adjustment, but with the ability to fully aim the light as you wish.

They are also available as an integrated version as well, if desired.
