AMP® Line Voltage Landscape Lighting

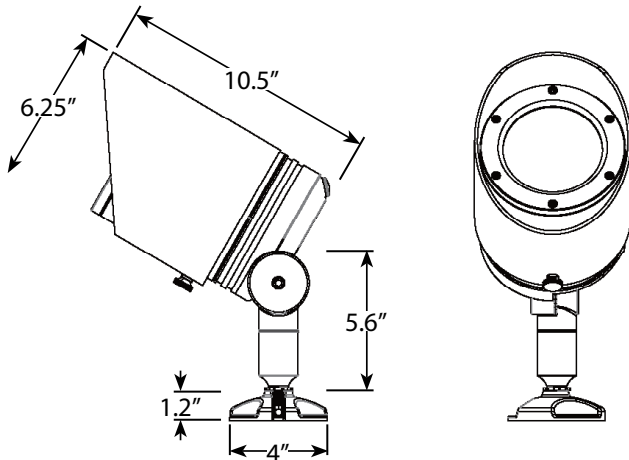

120V RGBW PinnaclePro Max LED Spotlight (Dimmable)- AAL-1037-LI-A-BK

Product Description

This oversized RGBW spotlight is modeled after the industry leading PinnaclePro spotlight and is designed for extremely powerful illumination with crisp, vivid colors of light. IR remote control capabilities allow for color changing and a wide range of dimming options for the light output. With a fully adjustable glare guard not typically seen on line voltage spotlights in the industry; this fixture not only packs a punch but, delivers precision aiming as well. Interlocking teeth in the robust knuckle allow for a strong securely locked adjustment, with the ability to fully aim the light as you wish. NOTE: This line-voltage (120V) model comes with a standard 3-prong plug for inserting directly into a GFCI outlet. Surface mount included.

Product Dimensions
