

AMP® Low Voltage Landscape Lighting InfusedPro Thin Integrated Step Light- AHS-630X-4-B-BZ

Product Description

The InfusePro Thin Step Lights are designed for simple installation for step-lighting applications. Compared to traditional recessed step lights, these low-profile integrated step lights are quick and easy to install with the pre-drilled screw slots on the brass faceplates. All of the necessary mounting hardware is included. The solid brass housings are constructed for durability and are IP-65 rated against water intrusion. Offset screws protruding from the backsides of the step lights allow for a minimal gap for the lead wire to exit between the fixture and the object it is being mounted to. Ideal residential and commercial applications include: illuminating handicap ramps and walkways next to stone walls, retaining walls and nooks around outdoor kitchens.

Features & Benefits

- ▶ Easy installation, this fixture does not need to be recessed into a surface.
- ▶ Pre-aged finish- a natural patina that does not corrode
- ▶ Silicone plug at lead wire exit prevents moisture and insects from entering luminaire
- ▶ Completely water tight; pressure fit rubber gasket and rubber seal around wire exit. This fixture is IP65 rated.
- ▶ Ideal lumen count creates a soft light to illuminate an area without being overly bright.
