

# AMP® Low Voltage Landscape Lighting

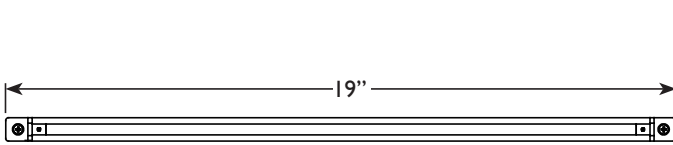

## AMP® Soft-Wash Pro™ LED Rotatable Hardscape Light (High Output)

### Product Description

AMP®'s new high-output hardscape light is one of the latest additions to the industry innovating Soft-Wash Pro™ LED Hardscape Light series. The new style now offers a higher lumen output for increased levels of illumination in addition to the precision aiming offered by the 360-degree rotatable design. Low-profile, durable brass housing with exceptionally wide, diffused illumination free of hot spots ideal for a diverse range of applications. Compatible with AMP®'s new "Y" style mounting bracket for wall-washing or down-lighting from rooflines. Backed by a Hassle-free Lifetime Warranty.

### Product Dimensions

### Specifications

- ▶ **Construction:** Cast Brass
- ▶ **Finish:** Bronze
- ▶ **Lead Wire:** 25' UL approved 18AWG, SPT-1 wire
- ▶ **Light Source:** Integrated LED
- ▶ **Lens:** Encapsulated in resin
- ▶ **Beam Spread:** 120°
- ▶ **Color Temperature (CCT):** 2700K
- ▶ **Color Rendering Index (CRI):** 80+
- ▶ **Life:** 60,000 hr L70
- ▶ **Operating Voltage Range:** 8-15V
- ▶ **Powered by:** AMP® low voltage transformers
- ▶ **Dimming:** Non-Dimmable
- ▶ **Positioning:** Locking 360° rotatable body for precision aiming
- ▶ **Power Consumption:** 11W
- ▶ **Lumens:** 425lm

### Features & Benefits

- ▶ Solid brass construction
- ▶ LED's encapsulated in resin; provides superior protection against moisture, thermal shock, vibration, extreme temperatures and other potentially damaging environments.
- ▶ Fully rotatable 360° for precision light aiming
- ▶ Multiple installation options:
  - Surface mounted, using the two pre-drilled holes
  - Incorporated into masonry or concrete, using the 304 stainless steel mounting plate accessory
  - Stake mounted, using the optional Y Bracket
- ▶ Stainless steel set screws that make a strong and solid locking connection once adjustment is complete
