AMP® Low Voltage Landscape Lighting RGBW PuckPro Bi-Pin LED Puck Light - AHS-7012-0-B-RB

Product Description

The AMP® Bi-Pin Puck Lights are designed for specific use with AMP®'s mini & estate hanging lights and customizable bollard lights ONLY. This integrated LED bi-pin puck light is the first of the series to offer powerful, vivid RGBW color-changing capabilities. True-to-color LEDs produce powerful, vibrant colors. The Bi-Pin design allows for an easy, on the spot replacement. Constructed of a round brass disc with an integrated RGBW LED and AMP®-engineered driver embedded in waterproof epoxy. Simple to install; simply remove the current bi-pin puck light from the socket and drop in the replacement. Backed by a Hassle-free Lifetime Warranty.

Product Dimensions
