

AMP® LED Lamps

Single Contact Bayonet Lamp- SCB-50-22

Product Description

AMP® LED lamps are designed to match the form factor and illumination of the incandescent lamps they replace. This is true for the AMP® LED SCB series; they are direct replacements for tungsten halogen SCB lamps. These lamps are instant-on and are specifically designed for outdoor low-voltage landscape lighting. Various LED wattages are available. The 2W, 3W, and 4W options feature frosted lenses to diffuse the light output for lower levels of illumination. The newer, higher-wattage versions (5W) are designed with clear lenses for brighter illumination in applicable fixtures. All AMP® LED lamps are backed by a Hassle-free Lifetime Warranty.

Product Dimensions

Specifications

- ▶ **Input Voltage, Frequency:** 6-18VAC, 50/60Hz AC- with decreased lumens under 10V
- ▶ **Beam Angles:** Omni-Directional
- ▶ **Lumen Output / Efficiency:**
 - 5W (50W equiv.) Models: 460 lm
- ▶ **Correlated Color Temperature (CCT):** 2200K
- ▶ **Color Rendering Index (CRI):** >82
- ▶ **Life:** 40,000 hours (L70)

Features & Benefits

- ▶ Replacements for:
 - 50W Halogen SCBs
 - Omni Directional beam angles
- ▶ Reduces energy consumption by about 75%
- ▶ Lasts up to 8 times longer than halogen lamps
- ▶ No warm-up time, instant-on with full light output and stable lamp to lamp color
- ▶ Suitable for use in enclosed fixtures

Warranty

Residential: Lifetime Warranty
 Commercial: 10-Year Warranty
