

AMP® Low Voltage Landscape Lighting HydroPro MR11 Well Light (Lamp-Ready)- AWL-5005-B-BZ

Product Description

The HydraPro MR11 Well Light is a compact, low-voltage professional grade fixture. Ideal for up lighting on trees, columns, walls and applications where a low-profile outdoor in-ground fixture is desired. This innovative fixture features an adjustable lamp gimbal for precise aiming of light output (a feature not common among other well lights in the industry). Constructed of cold forged brass with an enhanced wire gland and fully potted wire entrance, the HydraPro is a highly durable, completely waterproof fixture - the professional's choice for an articulated well light. Choose your desired lighting by selecting from our wide variety of MR11 bulbs. Faceplate options include: Open-Face, Grated, Shielded, Beacon, and Turret Top.

Product Dimensions

Features & Benefits

- ▶ Cold forged brass faceplate for maximum durability.
- ▶ Completely water tight and fully submersible.
- ▶ Tools for fixture are provided.
- ▶ Pressure fit gasket (must be tightened in a star pattern).
- ▶ Adjustable gimbal socket for directional precision aiming.
- ▶ Efficient heat dissipation.
