

VOLT® Line Voltage Landscape Lighting 120V PAR30 Series

Product Description

VOLT's LED PAR30 line voltage landscape lighting bulb is a direct replacement for halogen PAR30 bulbs with similar light level, using only a fraction of the power consumption. Fully encapsulated to keep moisture out making this bulb a great alternative to typical halogen PAR30s. Our LED bulbs are built using high-quality LEDs and come with a lifetime warranty. The first LED alternative that fits directly into VOLT® fixtures such as the 120V Rotunda Bollard. This bulb coupled with VOLT's Rotunda fixture allows for maximum light levels. It still produces virtually zero glare in the recessed; tightly sized stem of the Rotunda. The stem itself is made to perfectly fit the PAR30 bulb's footprint allowing for flawless lighting harmony inside the fixture.

Product Dimensions

Specifications

- ▶ **Base:** PAR30 Edison Style E26 Bulb
- ▶ **Color Temperature:** 4000K
- ▶ **CRI:** >80
- ▶ **Power:** 12 Watt
- ▶ **Beam Angle:** 36°
- ▶ **VAC:** 120V
- ▶ **L70 (Lifetime):** 50,000 hrs
