

VOLT® Low Voltage Landscape Lighting Tranquility Hanging Light- VAL-950x Series

Product Description

VOLT's Tranquility Hanging lights are designed to illuminate large areas on the ground by hanging from a limb or tall pergola in order to provide a nice even coverage over an area; similar to that of the light produced by the Top Dog Tommy light. The benefit of the hanging lights is that they do not have to be mounted under anything in order to keep water out, as they are fully sealed for downlighting. That; coupled with the pattern they produce by having open holes along the side of the cylinder, make these fixtures superior in almost every aspect. If you are looking for a simple looking traditional downlight for your yard, this product is it. They are available in both a sleek cylinder style, as well as a nice traditional hat style. Both styles come with a Lifetime Warranty.

Product Dimensions

Features & Benefits

- ▶ Solid Brass
- ▶ Pre-aged finish; no powder coating, paint or finish to wear off or peel—just natural patina that does not corrode
- ▶ Beryllium copper socket - more corrosion resistant than copper
- ▶ 36" brass chain and a cast brass mounting bracket for secure attachment
- ▶ Pressure rubber gasket for a moisture tight design
- ▶ Tri mount for easy installation.
