

VOLT® Low Voltage Landscape Lighting

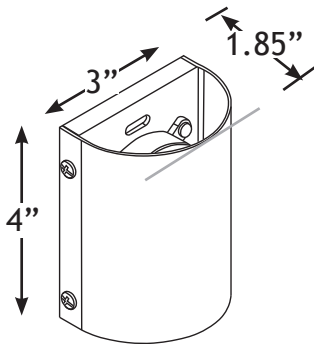

VOLT® Up/Down Integrated LED Deck Light- VDL-6007

Product Description

The Up/Down Deck Light is a distinctive and elegant cast brass fixture that offers the benefits of a compact deck light; along with the beauty and functionality of an up/down sconce. The fixture is ideal for posts on gazebos and arbors, and for wall mounting along steps, stairs, and entry ways. This luminaire is also ideal for mounting on columns and pillars.

The innovative construction of the fixture consists of an LED module enclosed behind frosted glass. The light source projects onto an angled reflector that divides the light equally in both directions. The cast brass shade acts to fully shield the light; preventing direct glare from all sides.

Product Dimensions

Features & Benefits

- ▶ Solid Brass Construction.
- ▶ Pre-aged finish; with a natural patina that does not corrode, or the option for a white powder coating.
- ▶ Ceramic white interior reflects light to maximize output and beam spread.
- ▶ Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem.
- ▶ Machine threaded body screws tight onto an O-ring for a moisture tight design.

Specifications
