

# VOLT® Low Voltage Landscape Lighting Brass Bunker Thin Integrated Step Light- VHS-610X-4-BBZ

## Product Description

The Brass Bunker Thin Integrated Step Lights are designed for quick and easy installation for step-lighting projects. Traditional step lights must be recessed into a step or a wall, whereas these thin, integrated step lights allow for simple surface mounting thanks to pre-drilled screw slots on the faceplates. All of the necessary mounting hardware is included. The solid brass housings are constructed for a lifetime of durability and are completely sealed for water protection. Offset screws sticking out of the backsides of the step lights allow for a minimal gap for the lead wire to easily exit as needed between the fixture and the object it is being mounted to. Ideal applications include: illuminating walkways next to stone walls, retaining walls and nooks around outdoor kitchens.

## Features & Benefits

- ▶ Easy installation, this fixture does not need to be recessed into a surface.
- ▶ Pre-aged finish- a natural patina that does not corrode
- ▶ Silicone plug at lead wire exit prevents moisture and insects from entering luminaire
- ▶ Completely water tight; pressure fit rubber gasket and rubber seal around wire exit. This fixture is IP65 rated.
- ▶ Ideal lumen count creates a soft light to illuminate an area without being overly bright.
