

VOLT® Low Voltage Landscape Lighting

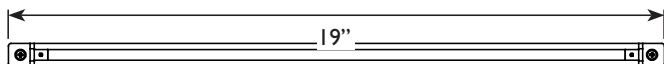

VOLT® 18” High Output Brass Rotatable LED Hardscape Light

Product Description

VOLT®’s new high-output hardscape light is one of the latest additions to the industry innovating line of rotatable brass LED hardscape lights. The new style now offers a higher lumen output for increased levels of illumination in addition to the precision aiming offered by the 360-degree rotatable design. Low-profile, durable brass housing with exceptionally wide, diffused illumination free of hot spots ideal for a diverse range of applications. Use with VOLT®’s new “Y” style mounting bracket for wall-washing or down-lighting from rooflines. Backed by a Lifetime Warranty.

Product Dimensions

Specifications

- ▶ **Construction:** Cast Brass
- ▶ **Finish:** Bronze
- ▶ **Lead Wire:** 25’ UL approved 18AWG, SPT-1 wire
- ▶ **Light Source:** Integrated LED
- ▶ **Lens:** Encapsulated in resin
- ▶ **Beam Spread:** 120°
- ▶ **Color Temperature (CCT):** 2700K
- ▶ **Color Rendering Index (CRI):** 80+
- ▶ **Life:** 60,000 hr L70
- ▶ **Operating Voltage Range:** 10-15V
- ▶ **Powered by:** VOLT® low voltage transformers
- ▶ **Lumens:** 425lm
- ▶ **Energy Consumption:** 11W

Features & Benefits

- ▶ Solid brass construction
- ▶ LED’s encapsulated in resin; provides superior protection against moisture, thermal shock, vibration, extreme temperatures and other potentially damaging environments.
- ▶ Fully Rotatable 360° for precision light aiming
- ▶ Multiple installation options:
 - Surface mounted, using the two pre-drilled holes
 - Incorporated into masonry or concrete, using the 304 stainless steel mounting plate accessory
 - Stake mounted, using the optional Y Bracket
- ▶ Stainless steel set screws that make a strong and solid locking connection once adjustment is complete
