

VOLT® Low Voltage Landscape Lighting

The Coachman Path & Area Light - VPL-1006

Product Description

The unique, patented design of the VOLT® Coachman Brass LED Path and Area Light relies upon its two light sources - an ultra-realistic LED candle and an LED source hidden under the shade. The intention of the luminaire is to reproduce a traditional post-style coach light, housing a real candle, and to add the general area illumination required for most coach light applications. The LED candle itself is an exclusive from VOLT - the only one on the market that draws power through a bi-pin socket. This candle can be replaced just like any other lamp.

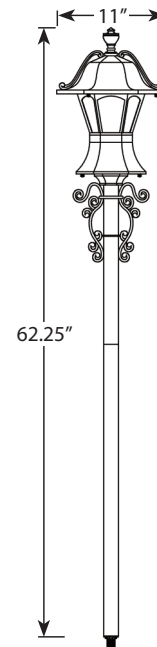

Specifications

- ▶ **Construction:** Brass
- ▶ **Finish:** Bronze
- ▶ **Lead Wire:** 4' 18AWG
- ▶ **Mounting:** 17" Stake
- ▶ **Light Source:** LED Bi Pin Candle (decorative) and LED SCB (Single Contact Bayonet) Lamp for actual illumination
- ▶ **Operating Voltage:** 12V AC
- ▶ **Powered by:** VOLT's Low Voltage Transformer
- ▶ **Color Temperature:** 2200K light sources
- ▶ **Beam Spread:** 16' Outer Diameter

Features & Benefits

- ▶ Extra thick "Estate Sized" Stem for strength and added aesthetic value. Estate sized fixtures are both thicker and taller to complement larger yards
- ▶ Ultra realistic LED Candle that looks like it's producing the light
- ▶ Hidden SCB light source provides 2200K light to match the LED candle, while still concealing glare
- ▶ Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem
- ▶ Ornate design is elegant even in the daylight
