VOLT® Low Voltage Landscape Lighting

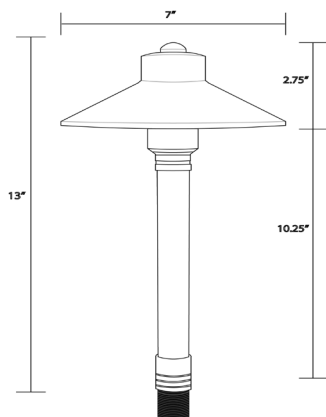

VOLT® Flat Hat 7" Mini Path & Area Lights – 320 Series

PRODUCT DESCRIPTION

The Mini Flat Hat Path Light takes the classic design and gives it a modern edge with a sleek black powder-coat finish. This mini version maintains the key advantage of its full-size counterpart: a heavy-duty 1" thick stem and premium internal components housed in solid brass construction for lasting durability. Despite its compact size, it offers height adjustability with optional matching 6", 12", and 24" extension rods (sold separately). Perfect for illuminating pathways, walkways, flower beds, and docks. It also offers versatility with a surface mount option for mounting on walls, pillars, or for custom applications. This fixture produces an approximately 6-foot diameter beam spread. Space the fixtures about 6 feet apart for continuous path illumination or 8.5 feet apart for independent pools of light.

PRODUCT DIMENSIONS

FEATURES & BENEFITS

- Solid Brass Construction.
- Pre-aged finish; natural patina that does not corrode.
- Beryllium copper socket more corrosion resistant than copper.
- Strip resistant threading provides superior mounting stability.
- Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem.
