

VOLT® Solar Landscape Lighting

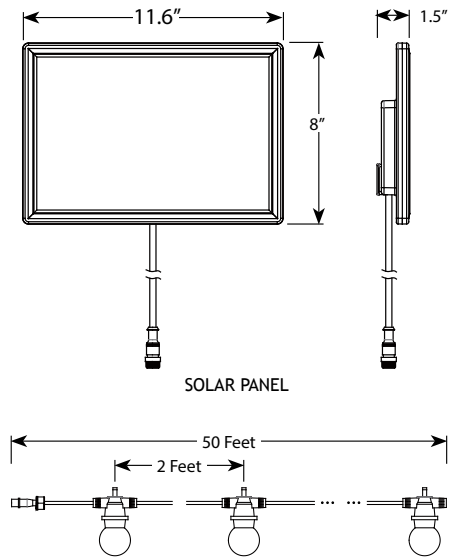

Solar Bistro String Lights (50ft)- VSSI-2005-50-BK

Product Description

Add warm and festive illumination to your patio or deck for parties and more with LED bistro string lights! These VOLT® bistro string lights are solar-powered and feature replaceable LED bulbs. With a full day's charge, a single bistro string will produce illumination for approximately 12 hours before gradually dimming and turning off. The warm white (2200K) bulbs produce approximately 79 lumens of illumination and provide a pleasant glow that bathes the entire scene in a comfortable light. Various mounting options for the solar panel include: stake mounting, surface mounting, and clamp mounting. Designed for outdoor events, parties or permanent use, these weather-resistant globe lights are ideal for hanging and draping between trees, under canopies, verandas, lanais, restaurants and in tents.

Product Dimensions
