

AMP® Low Voltage Landscape Lighting

AMP® MagnumPro™ Copper Path & Area Light (Lamp-Ready) - AHT-3516-C-CP

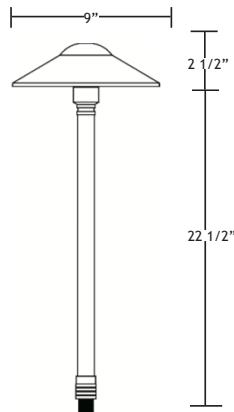

PRODUCT DESCRIPTION

The AMP® MagnumPro™ Path & Area Light (Lamp-Ready) has a sleek and modern design. It features our widest hat and can project LED light to produce a generous region of illumination. It contains a G4 socket and uses a replaceable G4 Bi-Pin bulb. The solid cast copper construction is much more durable, and more heavy-duty than spun copper hats and features natural finish that becomes more beautiful as it ages. The shade and stem come together with strip resistant threading and a finial hat at the top of the hat for cleaner aesthetic. This fixture will never bend or break.

The light source comes from a G4 Bi-Pin bulb (sold separately). This produces a wide beam of glare-free light with even distribution and soft edges. An ideal fixture to illuminate pathways, driveways, steps, stairs, and landscape regions such as gardens, patios, and docks. LED bulb sold separately.

PRODUCT DIMENSIONS

FEATURES & BENEFITS

- ▶ Copper construction with pre aged patina
- ▶ Stem is 1-inch thick and includes extra-long (1-inch) strip resistant threading for greater stability.
- ▶ Beryllium copper socket – more corrosion resistant than copper.
- ▶ Silicone plug at lead wire exit prevents ground moisture and insects from entering luminaire through the stem.
- ▶ Ceramic white paint under shade for maximum light reflection.
