

AMP® Low Voltage Landscape Lighting

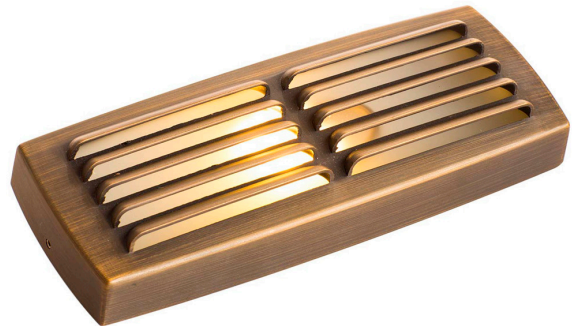

Safe-Step Pro™ LED Step Light

Product Description

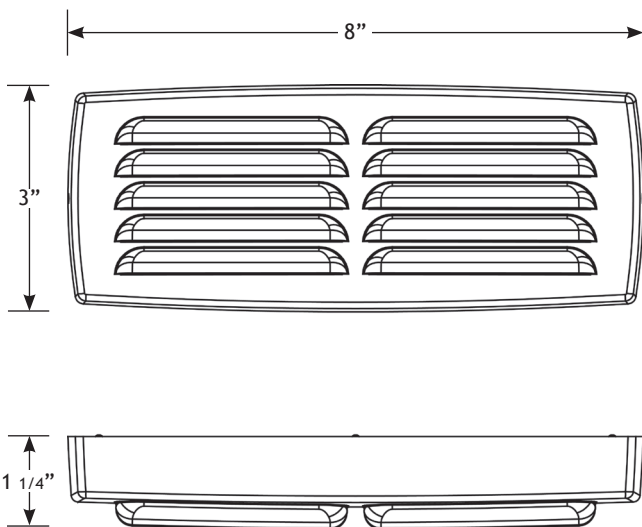

With solid cast brass construction and an integrated Cree® LED light source, this professional fixture performs a critical safety function - lighting steps and stairs (features that must be illuminated to prevent trips and falls).

The AMP® Safe-Step Pro™ LED Step Light performs this function perfectly. Its louvered design and low profile makes it ideal for surface mounting on stair risers or sidings. Even when mounted just inches above the floor, its light distribution is wide enough and extends forward enough to fully illuminate typical stair treads.

The louvers also ensure the complete absence of uplight, entirely preventing direct glare into the eyes of people ascending the stairs. No other light fixture presents such an effective solution to the safety risks associated with steps and stairs in the landscape.

Product Dimensions

Features & Benefits

- ▶ Solid cast brass construction
- ▶ Wide even light distribution
- ▶ Extremely low energy consumption (3.7W)
- ▶ Low Profile - ideal for surface mounting on stair risers
- ▶ Integrated light source with USA -made Cree® LED's
- ▶ Louvered lens - will not cause direct glare

Safe-Step Pro™ LED Step Light

Specifications

- ▶ **Construction:** Cast Brass
- ▶ **Finish:** Antique Bronze
- ▶ **Lead Wire:** 25'18AWG, SPT-2 premium tinned wire
- ▶ **Mounting:** Four screw holes (mounting hardware not included)
- ▶ **Light Source:** Integrated LED
- ▶ **Lens:** Frosted glass behind louvered lens
- ▶ **Color Temperature:** 2700K
- ▶ **Color Rendering Index:** 80+
- ▶ **Life:** 60,000 hours L70
- ▶ **Operating Voltage Range:** 8-15V
- ▶ **Watts (W):** 3.7
- ▶ **Lumens (lm):** 21
- ▶ **Amps (A):** 0.4
- ▶ **Power Factor (PF):** 0.69
- ▶ **Volt Amps (VA):** 5.4
- ▶ **Powered by:** AMP® low voltage transformers
