

AMP® Low Voltage Landscape Lighting

Core Drill Well Light- AWL- 5012

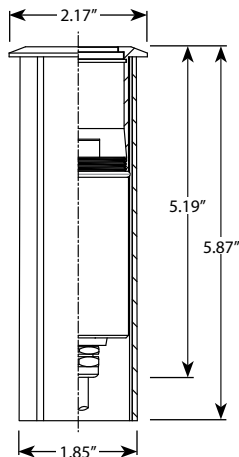

PRODUCT DESCRIPTION

Crafted with ease of installation and design in mind, this well light fits into standard 2" core drilled holes and features an ingenious push socket that allows the MR11 lamp to be lowered in the housing for glare protection or raised for better light output.

Understanding the importance of durability and reliability in outdoor lighting, this path light boasts an IP67 rating guaranteeing protection against dust, water, and other environmental elements. Providing added durability, this fixture was rigorously load tested to ensure compatibility with residential-only vehicles, instilling confidence in both you and your clients.

PRODUCT DIMENSIONS
