

AMP® Low Voltage Landscape Lighting

Core Drill Well Light- AWL- 5012

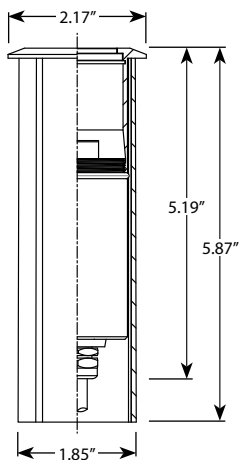

PRODUCT DESCRIPTION

Specifically designed for contractors like you, this exceptional lighting solution will elevate your outdoor projects to extraordinary levels of success. Enjoy complete control over your lighting setup with our ingenious push socket feature. This remarkable functionality allows you to adjust the bulb position, offering two distinct advantages. Lower the bulb for enhanced glare protection, ensuring a visually comfortable experience. Alternatively, raise the bulb to optimize light output, transforming landscapes into captivating visual spectacles.

We understand the importance of durability and reliability in outdoor lighting, which is why our Core Drill Well Light exceeds expectations. It boasts an impressive IP67 rating, guaranteeing resistance against dust, water, and other environmental elements. Rest assured that our product has undergone rigorous load testing to ensure compatibility with residential-only vehicles, instilling confidence in both you and your clients.
