

AMP® HydraPro™ Beacon MR16 Brass In-Grade Light

Product Description

This redesigned in-grade light has several improved features. This fixture is made from cold forged brass, making it the ultimate underwater fixture. This version comes with a Beacon top which provides added glare protection and makes this fixture a great dock or pathway light. The beacon top effectively transforms this heavy duty waterproof fixture into a marker light to help people find their way in the dark. The benefit of this over the turret top version is that the beacon is directional, so you can use it on the edge of a pathway and shine it in a singular direction if you would prefer to. It also has a pressure fit gasket that creates a tight seal keeping water out of the internal housing. Newly designed wire glands prevent water from getting into the fixture at one of the most common points of failure. This fixture can also be used on land with its efficient heat dissipation. Choose your desired lighting by selecting from our wide variety of MR16 bulbs.

Product Dimensions

Specifications

- ▶ **Construction:** Cold Forged Brass
- ▶ **Finish:** Bronze
- ▶ **Lead Wire:** UL approved 18AWG, 2 conductor SJTW wire
- ▶ **Glass or Lens:** Clear Flat Glass
- ▶ **Light Source:** MR16
- ▶ **Operating Voltage:** 12V
- ▶ **Powered by:** AMP's Low Voltage Transformer
- ▶ **Torque Setting:** 1.5 ft. lbs.
