VOLT® Low Voltage Landscape Lighting

VOLT® Nano Integrated LED Brass Flood Light - VFL-4028

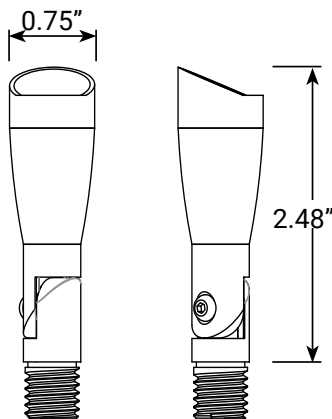

PRODUCT DESCRIPTION

The ultimate solution to hidden light sources, this tiny flood light measures only 2.5" in length and 0.75" in width, making it easily concealable in any setting. Designed specifically for smaller, non-traditional, urban landscapes such as high-rises, apartments, planters, and more, this flood light offers the smallest footprint measuring the size of your index finger.

Despite its small footprint, this integrated LED flood light produces a powerful 175 lumens of a warm 2700K glow. Aligned with the broad beam angle characteristic of conventional flood lights, the Nano Flood Light offers an expansive ~120° beam angle, ensuring widespread and effective illumination.

PRODUCT DIMENSIONS

FEATURES & BENEFITS

- Solid Brass Construction.
- Pre-aged bronze finish that will naturally and beautifully patina with age.
- Strip resistant threading provides superior mounting stability.
- IP66 rating to withstand dust and powerful jetting water.
- Adjustable knuckle allows light to be precision-aimed.
- Beryllium copper socket – more corrosion resistant than copper.

SPECIFICATIONS

- **Construction:** Brass
- **Finish:** Bronze
- **Mounting:** 2" Hammer Stake
- **Lead Wire:** 18 AWG
- **Lens:** clear
- **Light Source:** Integrated
- **Operating Voltage:** 12VAC
- **Powered by:** VOLT's Low Voltage Transformer
