VOLT® Low Voltage Landscape Lighting

VOLT® G2 BuddyPro LED Brass Puck Light- VHS-6733

PRODUCT DESCRIPTION

The G2 BuddyPro LED brass puck light (2700K) effortlessly transforms your space, offering a variety of mounting and installation options to suit your needs. Surface mount it under benches, railings, or overhangs for targeted lighting. Recess it into decks, steps, and hardscapes for a seamless, integrated look. Direct it downward as a functional downlight or use it as an uplight for your garden features or pathways.

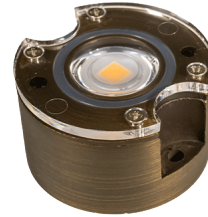

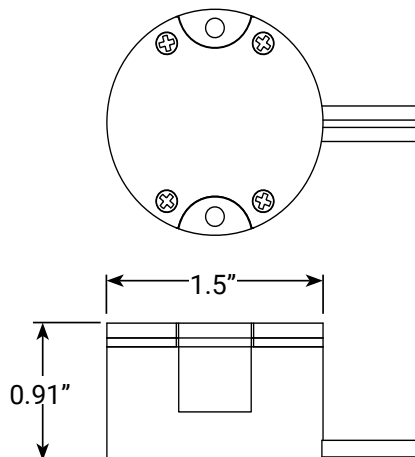

With its IP67 rating, the BuddyPro puck light is built to withstand dust, water, and even temporary submersion, making it for year-round use. With 116 lumens of brightness and three (3) interchangeable lenses (included) - clear, frosted, and diffused – you can personalize the light output and effect. Additionally, four (4) glare guards (sold separately) give customization over light direction and glare control.

Applications:

Surface Mounted. Using two small screws, the light can be mounted on any flat surface - under railings, shelves, counters, benches, or any other niche location. It's easy to hide this light to create a compelling lighting effect.

Core Drilled. The perfectly round fixture body and flat top are ideal for installing this light flush with any surface. Using a 1.5" core drill bit, the fixture can be inset into wood, cement, or any other material. The result is a light source that originates from a flat plane - hiding the fixture body for a cleaner non-intrusive installation.

PRODUCT DIMENSIONS

SPECIFICATIONS

- **Construction:** Brass
- **Finish:** Bronze
- **Lead Wire:** 18 AWG
- **Lens:** Clear, frosted or diffused
- **Light Source:** Integrated
- **Operating Voltage:** 12VAC
- **Powered by:** VOLT's Low Voltage Transformer
- **Watts:** 1W
- **Lumens:** 116lm
- **Color Temperature:** 2700K
