VOLT® Low Voltage Landscape Lighting

VOLT® G2 BuddyPro Plus LED Brass Puck Light- VHS-6734

PRODUCT DESCRIPTION

The VOLT® G2 BuddyPro Plus 2700K LED Brass Puck Light delivers 330 lumens of warm, inviting light, perfect for illuminating larger areas or creating a stronger focal point. Just like its counterpart, the BuddyPro Plus offers multiple mounting options. With its surface-mounting, recessing, downlighting, and uplighting capabilities, the possibilities are endless.

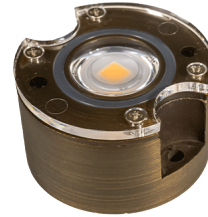

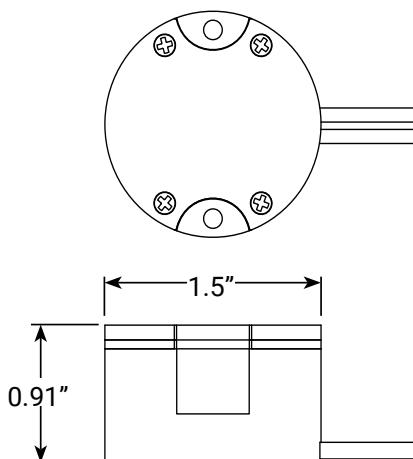

Built to last, the BuddyPro Plus was sealed to an IP67 rating, protecting its internal components from dust, water, and even temporary submersion. Three (3) interchangeable lenses (included) allow you to customize the light output and effect, while four (4) glare guard options (sold separately) provide a stylish look while helping to control light direction and protect from unwanted glare.

Applications:

Surface Mounted. Using two small screws, the light can be mounted on any flat surface - under railings, shelves, counters, benches, or any other niche location. It's easy to hide this light to create a compelling lighting effect.

Core Drilled. The perfectly round fixture body and flat top are ideal for installing this light flush with any surface. Using a 1.5" core drill bit, the fixture can be inset into wood, cement, or any other material. The result is a light source that originates from a flat plane - hiding the fixture body for a cleaner non-intrusive installation.

PRODUCT DIMENSIONS

SPECIFICATIONS

- **Construction:** Brass
- **Finish:** Bronze
- **Lead Wire:** 18 AWG
- **Lens:** Clear, frosted or diffused
- **Light Source:** Integrated
- **Operating Voltage:** 12VAC
- **Powered by:** VOLT's Low Voltage Transformer
- **Watts:** 3.5W
- **Lumens:** 300lm
- **Color Temperature:** 2700K

FEATURES & BENEFITS

- Solid Brass Construction.
