VOLT® Low Voltage Landscape Lighting

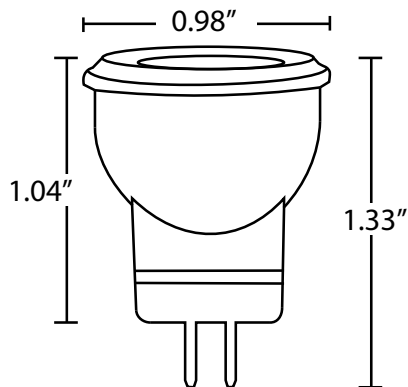

VOLT® Single Source LED MR8 Lamp - MR8-15-30-38C-R1

PRODUCT DESCRIPTION

With energy efficiency at the forefront, this LED bulb reduces energy consumption by an impressive 75%, making it an environmentally conscious choice while significantly lowering operational costs. Say goodbye to frequent bulb replacements as this long-lasting LED bulb outshines halogen lamps, boasting a lifespan up to 8 times longer.

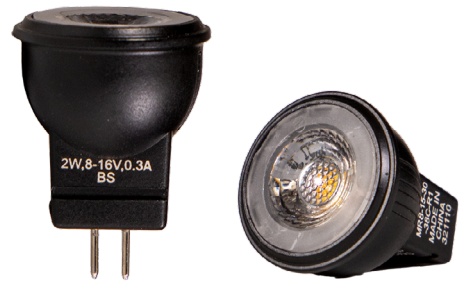

Experience the convenience of instant-on lighting and enjoy consistent and stable lamp-to-lamp color. Say farewell to warm-up time as this bulb provides instant full light output upon activation. This bulb will fit any VOLT LED landscape lighting fixtures that require an MR8 bulb. Specifically designed for landscape lighting and outdoor low voltage lighting. Backed by the industry's only lifetime warranty.

PRODUCT DIMENSIONS

FEATURES & BENEFITS

- Input Voltage, Frequency: 6-18VAC, 50/60Hz, with decreased lumens under 10V
- Input Power: 2W
- Beam Angles: 38° (flood)
- Lumen Output: 175lm
- Correlated Color Temperature (CCT): 2700K & 3000K
- Color Rendering Index (CRI): >83
- Life: 40,000 hours (L70)

SPECIFICATIONS

- Replacements for: 15W Halogen
- 38° Beam Angle
- Reduces energy consumption by about 75%
- Lasts up to 8 times longer than halogen lamps
- No warm-up time, instant-on with full light output and stable lamp to lamp color
