# VOLT® Low Voltage Landscape Lighting

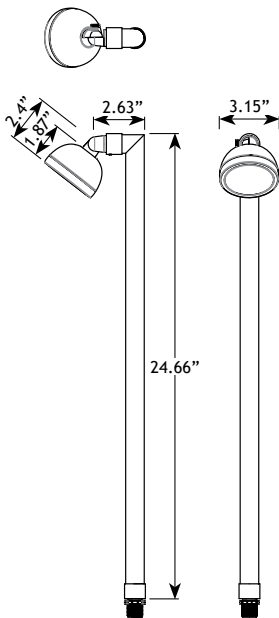

## VOLT® Mini Round Wash Path and Area Light- VPL-1054

### PRODUCT DESCRIPTION

Combining our traditional path light stem with the head of our mini round wall wash fixture, this directional path light is perfect for illuminating paths, driveways, porches, and more. With its ceramic white interior to help maximize light output and beam spread, this path light proudly boasts a noteworthy maximum of up to 13 feet of forward ground illumination (achieved by adjusting the fixture to a 45° angle).

Designed with a fully adjustable knuckle for directional lighting making this fixture ideal for illuminating walls without creating the cone-shaped patterns produced by spotlights. The Mini Round Wash path light is also useful for providing a wide wash-type effect for low-lying plants and garden beds.

### PRODUCT DIMENSIONS

### FEATURES & BENEFITS

- Solid Brass Construction.
- Pre-aged finish; natural patina that does not corrode.
- Beryllium copper socket more corrosion resistant than copper.
- Strip resistant threading provides superior mounting stability.
- Adjustable knuckle allows light to be precision aimed.
- Up to 13' of forward ground illumination when angled at a 45° angle.
