

# VOLT® Low Voltage Landscape Lighting

## Conehead Mini Path & Area Lights - 310 Series

### Product Description

The only difference between this mini model and the Conehead Path/Area Light is the height of the stem. The overall height of the fixture from the ground to the top is 14" with another inch of threading. Use these products when you need something short and low. Great for using a surface mount and mounting on top of walls, pillars, and custom applications. Perfect for small area light applications. Backed our lifetime warranty.

### Product Dimensions
