# VOLT® Solar Landscape Lighting

## VOLT® Premium Brass Solar Spotlight with Attached Panel- VSAL-9006

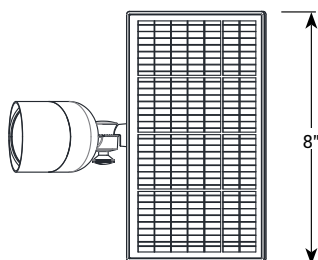

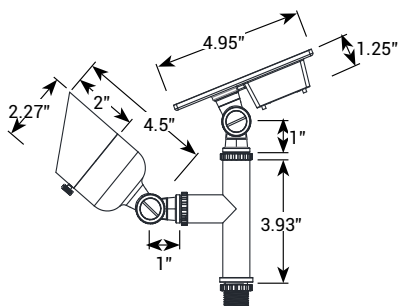

### PRODUCT DESCRIPTION

With three adjustable brightness levels, the VOLT® Premium Solar Spotlight allows light output customization for optimal performance and extended run time. Producing up to 200 lumens of warm 2700K light with a high 90+ CRI, it enhances outdoor spaces with rich, natural illumination.

Unlike competitors whose brightness drops within minutes, this spotlight maintains peak brightness for 4+ hours on high mode before dimming, delivering long-lasting, reliable illumination. Built for efficiency and durability, this IP65-rated spotlight fully recharges in just 4.5 hours of direct sunlight, providing up to 8 hours of nighttime illumination. The wire-free design allows for easy installation with the included 9" ground stake making it perfect for landscapes, gardens, and pathways.

### PRODUCT DIMENSIONS

### FEATURES & BENEFITS

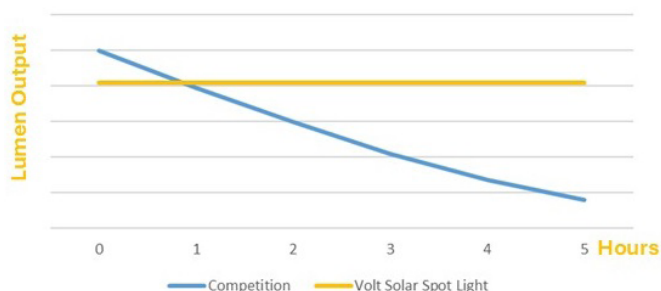

- Solid Brass Construction.
- Pre-aged finish; natural patina that does not corrode.
- Three light output levels: High (205lm, 4 hrs), Medium (140lm, 6 hrs), Low (75lm, 8 hrs)
- Fast solar recharge – fully charges in 4.5 hours of direct sunlight
- High CRI (90+) and warm 2700K light for accurate color rendering

### SPECIFICATIONS

- **Construction:** Brass
- **Finish:** Bronze
- **IP Rating:** 65
- **Light Source:** Integrated
- **Powered by:** VOLT's Solar Panel
- **Color Temperature:** 2700K
- **Mounting:** 9" ground stake
