

VOLT® Low Voltage Landscape Lighting

Stratum 12” Brass Two-Tier Area Light, 300 series

Product Description

The Stratum 12” Two Tier Area Light is a high-quality outdoor lighting fixture that produces a very wide beam. At 12 inches in diameter, this fixture has a large oriental style hat that really stands out. The traditional double tiered pagoda style shape makes this fixture look great in almost any setting. The shape sheds water with ease, while also allowing the most light to escape from below as possible. The inside of the hat is coated with a white reflective enamel for increased lumen efficiency. The solid brass material makes this both heavyweight and rugged. With this luminaire, will never have to worry about corrosion or rust!

Product Dimensions

Specifications
